

# Bishal G.C

---

Full Stack Developer | Python Developer

## Website Project

Developed a professional e-commerce website for a local pickle business to enhance online presence and boost sales.

Key Features:

- Custom-built shopping cart for ordering multiple pickle varieties
- Integrated payment gateway for secure transactions
- Mobile-responsive design for a better customer experience
- Product gallery with detailed descriptions and high-quality images
- Admin dashboard for managing inventory and orders

## Freelance Projects

- Logo & Video Content Creation
- Designed logos and short promotional videos for local brands
- Script writer for short movies

## Experience

- Private Tutor (Aug 2024 – Feb 2025)
- Participated in the Outstanding High School Code Matrix
- Tutored Grades 7-11 in Math (Algebra, Geometry, Calculus) & Science  
8 hrs/week, improved student grades and understanding

## Leadership & Involvement

- Banganga Youth Club: Member → Team Manager
- KGSS Student Council: Vice President → President
- Children's Network (Bal Sanjal): Secretary → President
- Organized sanitation & plantation drives (Grades 8-10)

## Volunteering

- Laxmanghat Sanitation Club
- Managed waste collection & plant restoration
